Intro to PHP Programming

Due August 23ʳᵈ, 2021

1- Write a factorial function using for loop
2- Write a script to create the given pattern with *:

```
*
**
***
****
*****
******
*******
********
```

3- Write a script to find maximum and minimum elements in an array
4- Write a php function to reverse elements in an array
5- Write a php script to put even and odd elements of array in two separate arrays
6- Write a function that converts binary number to decimal
7- Write a PHP script to get the index of the highest value in an associative array
8- Write a PHP script to merge two commas separated lists with unique value only:

$list1 = "4, 5, 6, 7";
$list2 = "4, 5, 7, 8";
Output: *4, 5, 6, 7, 8*

9- Write a PHP a function to remove a specified entry from an array.
10- Write a PHP function to set union of two arrays (no duplicates).

Happy Coding 😊
